1. Corporate information

The Company deals with land and building either as an investor, developer, taken/ given on lease and / or on rent. The Company is also in the business of purchase or acquisition of apartments, houses, flats, rooms, floors or other accommodation and to let or dispose of the same on installment basis or by outright sale.

2. Basis of Preparation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under the Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of the financial statements are consistent with those of previous year, except for the changes in accounting policy explain below.

2.1. Summary of significant accounting policies

(a) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the result of operation during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

(b) Fixed Assets

Fixed Assets are stated at cost of acquisition less accumulated depreciation. Cost includes duties (net of Cenvat), taxes, incidental expenses and erection / commissioning expenses incurred upto the date the asset is ready for its intended use.

The carrying amounts are reviewed at each balance sheet date when required to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed this estimated recoverable amount, assets are written down to their recoverable amount. Depreciation on fixed assets have been provided as per the Companies Act,2013 considering the useful life of assets as specified in Schedule-II .

(c) Depreciation on tangible fixed assets

Depreciation on fixed assets is calculated on useful life of assets using the useful lives as specified in Schedule II of Companies Act ,2013. Accordingly carrying amount of assets at the beginning of the year have been depreciated considering the remaining useful lives of the assets as specified in Schedule II of Companies Act ,2013. Carrying amount for building as at beginning of the year has to be depreciated for the balance useful life of 30 years , hence depreciation charged for the period accordingly. Carrying amount of furniture and fixtures has been depreciated for the remaing use of life of 1 year only , hence full value of carrying cost as at beginning of the period depreciated fully during the period.

(d) Leases

Where the Company is the lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognized as an expense in the Profit & Loss Account on a straight-line basis over the lease term.

COASTAL COMMERCIAL & EXIM LIMITED

NOTES TO FINANCIAL STATEMENTS FOR THE FIFTEEN MONTH PERIOD ENDED 31ST MARCH, 2015 (Contd.)

Where the Company is the lessor

Assets subject to operating leases are included in fixed assets. Lease income is recognised in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation are recognised as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs etc. are recognised immediately in the statement of profit and loss.

(e) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

(f) Revenue Recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Rental income is accounted for on accrual basis. Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

(g) Income taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

(h) Earnings Per Share [Basic & Diluted]

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential shares.

(i) Provisions

A provision is recognised when there is a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(j) Segment Identification

The Company's business activity primarily falls within a single business segment i.e. renting of premises. The Company operates only in one geographical segment i.e. domestic. Since there is neither more than one business segment nor more than one geographic segment, segment information as per AS 17 is not required to be disclosed.
